Senior Programmer Analyst | Full Stack Developer (Angular, Node.js, SQL)

PROFILE

Senior Programmer Analyst with over 7 years of experience in full-stack application development, SQL development, and enterprise system maintenance. Strong background in ERP systems, data analysis, and data migration activities within structured environments. Experienced in collaborating with stakeholders, writing technical specifications, and delivering reliable solutions aligned with organizational and regulatory requirements. Proven team lead with experience working on HR and financial-related modules in large-scale systems.

CORE COMPETENCIES

- Programmer Analysis & Technical Specifications
- Data Migration & Data Validation (SQL-based)
- SQL Development (MS SQL Server, MySQL)
- Enterprise & ERP Systems (HR & Financial modules)
- Full Stack Development: Angular, Node.js, JavaScript, TypeScript
- System Maintenance & Application Modernization
- Agile Team Leadership & Sprint Planning
- Technical Documentation & Knowledge Transfer
- Stakeholder Communication & Reporting
- Bilingual: French (fluent) & English (professional)

PROFESSIONAL EXPERIENCE

UNICONSULTS LTD | Mauritius | May 2017 - Dec 2025

Analyst Programmer / Senior Software Developer

- Acted as Senior Programmer Analyst on the SICORAX@HRMS ERP, supporting HR and financial-related modules (payroll, employee data, reporting).
- Designed, developed, and maintained enterprise-level applications using Angular, Node.js, and SQL.
- Performed data migration and transformation tasks, including extracting legacy data with SQL, validating data integrity, and supporting system upgrades.
- Developed and optimized complex SQL queries, stored procedures, and reports for operational and management needs.
- Analyzed business requirements and produced technical specifications and functional documentation.
- Maintained and enhanced existing systems, ensuring data accuracy, security, and performance.
- Led a team of 5 developers, coordinating tasks, reviewing code, and ensuring delivery timelines.
- Conducted code reviews and enforced development standards aligned with enterprise and audit requirements.

- Worked closely with management and non-technical stakeholders, providing regular progress reports and risk assessments.
- Performed technology watch and proposed process improvements to increase development efficiency.

Indépendant | Mauritius | Nov 2016 - Apr 2017
Freelance Web Developer

- Designed, developed, and maintained websites for a private client.
- Customized website features and layouts using WordPress, PHP, HTML5, CSS3, and JavaScript.
- Ensured cross-browser compatibility and responsive design for mobile and desktop.
- Managed project timelines and communications independently with the client.
- Utilized Microsoft Office tools (Word, Excel, Outlook) for project tracking and documentation.

STETTLER LTD | Mauritius | Jul 2012 - Nov 2016
Precision Mechanical Technician

- Produced domed glass components for luxury watchmaking, applying high-precision techniques and meeting strict measurement standards (e.g., micrometre use)
- Performed equipment maintenance, identified malfunction causes, diagnosed breakdowns, and implemented corrective actions to ensure continuous production
- Cleaned equipment and followed ISO standards to ensure safety and quality
- Maintained daily communication with other departments for managing the quantity and quality of received and produced parts, ensuring proper machine operation and minimizing rejected items

EDUCATION

- **Bachelor's Degree in Computer Science** March 2023 - March 2024
 Centre National de Télé-Enseignement de Madagascar (CNTEMAD), Madagascar
- **Diploma in Electromechanics** Sept 2005 - Aug 2007
